10. EVALUATION FACTORS

- 10.1 This is a multiple award contract. The District intends, but is not obligated, to make up to two (2) awards to the responsible Quoter(s) whose quote(s) are most advantageous to the District, based upon the evaluation criteria specified in the solicitation. Thus, while the points in the evaluation criteria indicate their relative importance, the total scores will not necessarily be determinative of the award. Rather, the total scores will guide the District in making an intelligent award decision based upon the evaluation criteria. The Technical Rating Scale is as follows:

<u>Numeric Rating</u>	<u>Adjective</u>	<u>Description</u>
0	Unacceptable	Fails to meet minimum requirements; <i>e.g.</i> , no demonstrated capacity, major deficiencies which are not correctable; offeror did not address the factor.

1	Poor	Marginally meets minimum requirements; major deficiencies which may be correctable.
2	Minimally Acceptable	Marginally meets minimum requirements; minor deficiencies which may be correctable.
3	Acceptable	Meets requirements; no deficiencies.
4	Good	Meets requirements and exceeds some requirements; no deficiencies.
5	Excellent	Exceeds most, if not all requirements; no deficiencies.

For example, if a sub factor has a point evaluation of 0 to 6 points, and (using the Technical Rating Scale) the District evaluates as "good" the part of the proposal applicable to the sub factor, the score for the sub factor is 4.8 (4/5 of 6). The sub factor scores will be added together to determine the score for the factor level.

10.2 MINIMUM REQUIREMENTS (Candidates must meet all minimum requirements to be eligible to be considered for award)

- (a) At least 5 years experience working on medium to large scale Software Development Life Cycle projects.
- (b) At least 5 years experience with process design and business analysis
- (c) At least 2 years experience working in a government environment

10.3 TECHNICAL CRITERIA (70 points)

10.3.1 KNOWLEDGE AND EXPERIENCE (35 Points)

10.3.4 PAST PERFORMANCE OF OFFEROR (10 points)

Please provide name, title and current phone number or e-mail address of at least three (3) references that can address the Offeror's past performance in providing quality candidates for similar services, as well as an examination of the quality of services provided, timeliness in service delivery, business practices, and overall satisfaction of the Offeror's performance. Offerors who have no relevant past performance will receive a neutral score (*i.e.* 5 out of 10).

10.4 PRICE CRITERIA (30 Points)

The price evaluation will be objective. The Offeror with the lowest price will receive the maximum price points. All other proposals will receive a proportionately lower total score. The following formula will be used to determine each Offeror's evaluated price score:

$$\frac{\text{Lowest price proposal}}{\text{Price of proposal being evaluated}} \times 30 = \text{Evaluated price score}$$

The District will evaluate offers for award purposes by evaluating the total price for all options as well as the base period. Evaluation of options shall not obligate the District to exercise them. The District's requirements may change during the option years. Quantities to be awarded will be determined at the time each option is exercised.

The Education Transition Office (ETO) will improve processes in the District that affect student enrollment, identification, class schedules, transportation, truancy, special needs, academic achievement, transfer in and out of District schools, compliance with mandated programs and re-imbursement from Federal and state agencies for services provided to special needs students. ETO will ensure that the District realizes new efficiencies and cost savings while simultaneously offering a broad range of new services to its students and residents.

PROJECT GOAL

The goal for this phase of the project is to analyze the systems and business processes identified for inclusion in phase I of the student tracking project, including:

1. The "entry points" at which a student can be assigned an ID and where they occur in the business processes;
2. How this is supported in the legacy apps/databases – the as-is;
3. Designation of a system of record for various fields, such as school name;
4. The quality control processes needed to make sure the student doesn't already have an ID before the District assigns one;
5. Analysis of the legacy databases to determine requirements for modifications to support deduplicated IDs going forward;
6. What student tracking processes are currently supported – as-is;
7. What processes need to be created or modified for student tracking;
8. What overlaps/gaps does the District have in student tracking;
9. Recommended to-be business processes, including maintaining one unified student record.

DELIVERABLES

1. To-be Business Reference Model that covers the processes supported by these apps
2. Related as-is detailed process flows, depicting interactions and data flows of legacy apps.
3. To-be detailed process flows that resolve the data quality problems to create the basic student record
4. Gap analysis
5. Logical as-is database diagrams for the legacy apps, if not already available
6. Logical to-be database diagrams if the as-is needs modification
7. Overall target logical data model to be implemented for the basic student record
8. Mappings of legacy databases to the target data model
